

4TH INTERNATIONAL WORLD OF MICROBIOME CONFERENCE

26-28 OCTOBER 2023
SOFIA, BULGARIA

The 4th International World of Microbiome Conference (WoM 2023) focusing on the latest science in microbial medicine and its application to clinical practice will take place 26-28 October in Sofia, Bulgaria!

The WoM 2023 Conference will cover various aspects of the microbiome and its impact on the human body. The Conference will once again aim to promote the crucial collaboration between researchers, clinicians, and industry in order to overcome knowledge gaps and to unleash the potential for disease prevention, diagnosis, and treatment.

Alongside the invaluable scientific content, at WoM 2023 we will also focus on the networking opportunities, informal interactions, and supplementary activities, as we aim to promote collaboration and forge partnerships.

Submitting your exciting new research for this year's Conference will give you the opportunity to make your mark in the field of microbiome and receive valuable feedback from colleagues and experts from all over the world.

We look forward to welcoming you this autumn in Sofia
